**Member benefits:**

- Patronage dividends paid to Members on fuel purchases (*contact us for information on how to become a member of Sunderland Co-operative Inc.*)

---

**PRICE GUARD FUEL CONTRACTING**

**Price Protection Plan**

**How it works:**

- Your maximum fuel price will be established at .04cents above current market price for fuel
- The duration of the Price Guard contract is 6 months, or until you've purchased the total number of litres booked, whichever comes first
- The cost to join our Price Guard contract is .035cents/litre for the number of litres you choose to book. There is a .04cents/litre cost when volume is drawn at any of our cardlocks
- If fuel prices drop during your Price Guard term, **you pay the lower price for your fuel**
- On each delivery you pay your Price Guard price OR the market price, **whichever is lower**
